Low Threshold Tubshowers

If you're looking for a safer bathing option, Longevity Acrylics NEW low threshold tubshowers could be the ideal solution for your needs. A Longevity Acrylics low threshold tubshower has a minimal threshold height from the floor, allowing for easy access and a sleek appearance. Whether you are a senior with mobility challenges, or a young family looking for the added comfort while bathing your children, enjoy the accessibility and independence of bathing safely in the comfort of your own home.

Longevity Acrylics NEW low threshold tubshower is designed with a 16 in. threshold. A low threshold means easier access to your tubshower and lower risk of an accident. This tubshower is constructed of the highest grade 100% cast acrylic finish for beauty, durability, and ease of cleaning - and is backed by Longevity Acrylics Lifetime Warranty.

Choose from left or right drain; domed or domeless; or soaking or massage models that can be equipped with air, hydro or dual therapy massage options.

Enjoy all of the benefits of Longevity Acrylics showers and tubshowers customized with the features to keep you and your family safe and comfortable for a lifetime!
